

The Arc's Self-Determination Scale Adolescent Version

The **Arc's Self-Determination Scale-Adolescent Version** is a student self-report measure of self-determination designed primarily for use by, and normed with, adolescents with cognitive and developmental disabilities. The scale has two primary purposes:

- To provide students and educators a tool that assists them to identify student strengths and areas of support and instructional need in self-determination; and
- To provide a research tool to examine the relationship between and among self-determination and factors that promote/inhibit self-determined behavior, to evaluate the efficacy of interventions to promote self-determination, and for use with related research activities

The scale has 72 items and is divided into four sections. Each section examines a different **essential characteristic** of self-determined behavior: **Autonomy, Self-Regulation, Psychological Empowerment** and **Self-Realization**. Each section has unique directions that should be read before completing the relevant items. Scoring the scale (see Procedural Guidelines for scoring directions) results in a total self-determination score and subdomain scores in each of the four **essential characteristics** of self-determined behavior. The Arc's Self-Determination Scale Procedural Guidelines provides information for administration and scoring the measure and a discussion about the use of self-report measures in general. The scale **should not be used** until the administrator is thoroughly familiar with these issues.

The Arc's Self-Determination Scale-Adolescent Version was developed by Michael Wehmeyer and Kathy Kelchner at The Arc of the United States with funding from the U.S. Department of Education, Office of Special Education Programs (OSEP), under Cooperative Agreement #H023J20012. Questions used in Section One (Autonomy) were adapted, with permission from the authors, from the Autonomous Functioning Checklist. Questions used in Section Four (Self-Realization) were adapted, with permission from the author, from the short form of the Personal Orientation Inventory. Appropriate citations for both instruments are available in The Arc's Self-Determination Scale Procedural Guidelines. The Arc gratefully acknowledges the generosity of these researchers.
